EXPERIENCE

SocialBoat

Mar 2023 – Oct 2023

Software Developer

Remote (Gurgaon, India)

- Worked closely with fellow developers to build a highly intuitive native mobile app using React Native to enhance user experience and engagement, resulting in a 50% boost in active engagement.
- Collaboration in developing a user-friendly web application to provide ease of familiarisation to the platform without downloading the app, resulting in a remarkable 60% increase in user base.
- Contributed to transitioning the focus from general fitness to women's health to increase revenue, this strategic shift resulted in a significant increase in revenue, reaching 3L/month in just 6 months.
- Participation in integrating GPT to enhance recommendation accuracy using users' medical and lifestyle contexts, resulting in the app's success with over 25k downloads and an average rating of 5.
- Major involvement in developed features such as scheduling/consulting with doctors and progress tracking to deliver better medical guidance to users, resulting in a 40% increase in positively impacting user health.

EDUCATION

JS Snippets - Cross-Browser Extension ↗

Aug 2024

- Developed a cross-browser extension that can save JavaScript code snippets for future reference and reuse.
- Tech Stack: TypeScript • ReactJS • Webpack • TailwindCSS

React List - React UI Package ↗

May 2024

- Build and maintain a React package of a scrollable interface to render infinite lists with type support, including horizontal, inverted, and section options.
- Tech Stack: TypeScript • ReactJS • Rollup • CSS

EditTube - Streamline YouTube Workflow ↗

Nov 2023

- Teamed up with developers for a hackathon to create an app that solves YouTube's problem of downloading videos for upload by providing a view and upload option within the platform.
- Tech Stack: MongoDB • ExpressJS • ReactJS • NodeJS

Paper Note - Note Taking App ↗

Oct 2021

- Created a user-friendly progressive web app for easy note-taking, accessible both online and offline.
- Tech Stack: ReactJS • Firebase • MaterialUI

SKILLS

Web Development, Hybrid Mobile Development, JavaScript, TypeScript, React Native, NextJS, Firebase, Tailwind CSS, MongoDB, ExpressJS, ReactJS, NodeJS, CSS.

EDUCATION

O. P. Jindal University

2019

M. Tech in Power Plant Engineering and Energy Management

Raigarh, (C.G.) India

Chhatrapati Shivaji institute of Thechnology

2017

B. E. in Mechatronics Engineering

Durg, (C.G.) India
